Finding Articles: A Quick Start Guide

1) **Articles** can be found in many of our online databases—click the **Databases** link on the homepage for a complete list.

   ![Databases](image)

2) On the **A-Z Databases** list, choose a specific database by clicking its **title**.

   ![A-Z Databases](image)

   **DON'T:** start your search on this page

   **DO:** click on a title to start your search
3) Individual databases may look different than the one pictured below, but the same search strategies will apply.

4) Browse your search results for other potential keywords and key phrases to try. Click an article title for access.
5) For more information about library research, check out or **Helpful Library Tools** and **Video Tutorials** on the homepage.

6) For **individual reference assistance**, please contact a librarian via email, phone, or chat. (Chat is available 24/7.)
